## Experience Summary

Sean P. Conway – Sean is in charge of vehicle development activities for Bright Automotive products and services.

Sean's experience and expertise, as well as his passion for innovation, customer value, and positive environmental impact, are in creating large-scale automotive products covering the entire vehicle development cycle: styling, packaging, voice-of-customer development, engineering design, full vehicle testing, manufacturing, quality, and marketing and public relations. Sean spent 18 years at Chrysler LLC, most recently as Vehicle Development Senior Manager for the Dodge Journey mid-size sport utility vehicle and the Chrysler Sebring sedan and hard-top convertible, overseeing the process of development and the domestic and international launches. Sean also managed the body-in-white engineering teams for the Chrysler 300 full-size sedan, led the engineering groups at assembly and stamping plants, and held assignments at the Proving Grounds and the Technology Center and Design Office. Sean had specialized training in product and process innovation and then led in developing structured innovation workshops throughout Chrysler. He was a member of the Leaders of Today and Tomorrow program, an accelerated development program with senior leadership sponsorship.

Sean is active in his children's school and extracurricular activities and has interests in wood-boat restoration, snowboarding, and kiteboarding.

Sean has a B.S. in Mechanical Engineering from Purdue University and an M.S. in Mechanical Engineering from the University of Michigan.
