### Experience Summary

Sean P. Conway – Currently Director of Special Projects for Bright Automotive, Inc., Mr. Conway has 20 years of diverse experience in developing large-scale automotive products. His expertise covers the entire vehicle development cycle: styling, packaging, voice-of-customer development, engineering design, full vehicle testing, manufacturing, quality, marketing and public relations. In his current role, Mr. Conway is responsible for vehicle development activities for Bright Automotive products and services. Along with extensive automotive experience, Mr. Conway brings a passion for customer satisfaction and the positive environmental impact in all types of Plug-in Vehicles.

Prior to Bright Automotive, Mr. Conway spent over 18 years at Chrysler, LLC where he held a variety of leadership positions. His most recent position was the Vehicle Development Senior Manager for the Dodge Journey mid-size sport utility vehicle and Chrysler Sebring sedan and hard-top convertible. In this position, Mr. Conway was responsible for the domestic and international market launches and managed all aspects of the vehicle development. In previous positions at Chrysler, Mr. Conway managed the body-in-white engineering team for the Chrysler 300 full-size sedan, led the engineering groups at assembly and stamping plants and held multiple assignments at Chrysler's Proving Grounds, the Technology Center and Design Office. While at Chrysler, Mr. Conway received specialized training in product and process innovation and led the effort in developing structured innovation workshops for Chrysler.

Mr. Conway received a BS in Mechanical Engineering from Purdue University and an MS in Mechanical Engineering from the University of Michigan.
